## Your shipments 100% climate neutral with Rotra

Dear acquaintance,

The environment is changing. With the transportation of your supplies, CO2 is released, which can have a negative impact on the environment. Rotra restricts the release of CO2 as much as possible by using vehicles that comply with the strictest climate norms, the training of personnel and the development of intelligent software. With its think tank, Rotra is always looking for new sustainable initiatives that contribute to our goal of a sustainable policy. For all these initiatives, we have been rewarded with the Lean & Green Award which we received on May 19<sup>th</sup> last.

However, as it is impossible to reduce the CO2 emission to zero and our ambition is 100% climate neutral transport, we would like to tackle the residual emission with you. Therefore, we offer you the possibility to transport your products (by road) in a climate neutral way with Rotra. With the Rotra Green Footprint we can collect your shipments 100% CO2 neutral and deliver them at their destination. We can do this by compensating the CO2 emission, in cooperation with the Climate Neutral Group ([www.climateneutralgroup.com](http://www.climateneutralgroup.com)), with investments in sustainable energy projects. For this, you are charged 0,88% (including administration fee) over the original freight rate for all transportation within the Netherlands and for all your international shipments. Per individual client, the amount of CO2 is related to the shipped volume.

### *Rotra Green Footprint*

With the Rotra Green Footprint, Rotra offers you the possibility to do sustainable business. Sustainable energy projects contribute to the reduction of CO2 in the atmosphere as the traditional fossil fuel is being replaced by sustainable energy. Examples of projects we invest in are windmill parks, hydropower centrals, solar panels and biogas and compost projects. The projects, which comply with the strictest quality criteria, are selected by the Climate Neutral Group and are controlled and certified by independent institutions.

Rotra registers for you how much you compensate each year. You will receive a compensation report periodically with which you can show that you are doing business in a climate neutral way in cooperation with Rotra.

If you want Rotra to take care of your shipments in a climate neutral way, visit [www.rotra.eu](http://www.rotra.eu) and confirm your climate neutral cooperation with Rotra, until further notice, by clicking on the Rotra Green Footprint banner on the home page. For more information, you can of course always contact Rotra at +31 (0)313-480199 or [greenfootprint@rotra.nl](mailto:greenfootprint@rotra.nl).

Rotra Forwarding,

**Machiel Roelofsen**  
Vice President Rotra Group

Rotra Forwarding BV exclusively operates as a forwarding agent. The following conditions shall apply exclusively to all our quotations, agreements, actions and work, depending on the nature of the work by Rotra:  
To forwarding activities: Rotra Forwarding BV General Conditions as deposited with the Clerk's Office of the District Court of The Hague, as well as the Nederlandse Expeditievoorwaarden (Conditions for Forwarding Agents in the Netherlands) (FENEX), as deposited with the Clerk's Office of the District Courts of Amsterdam, Arnhem, Breda and Rotterdam.  
With regard to the conditions mentioned above, the applicable version is the most recent one deposited. We will send you a copy of the terms and conditions free of charge on request.
